PARKING IS UNDER CONTROL.**

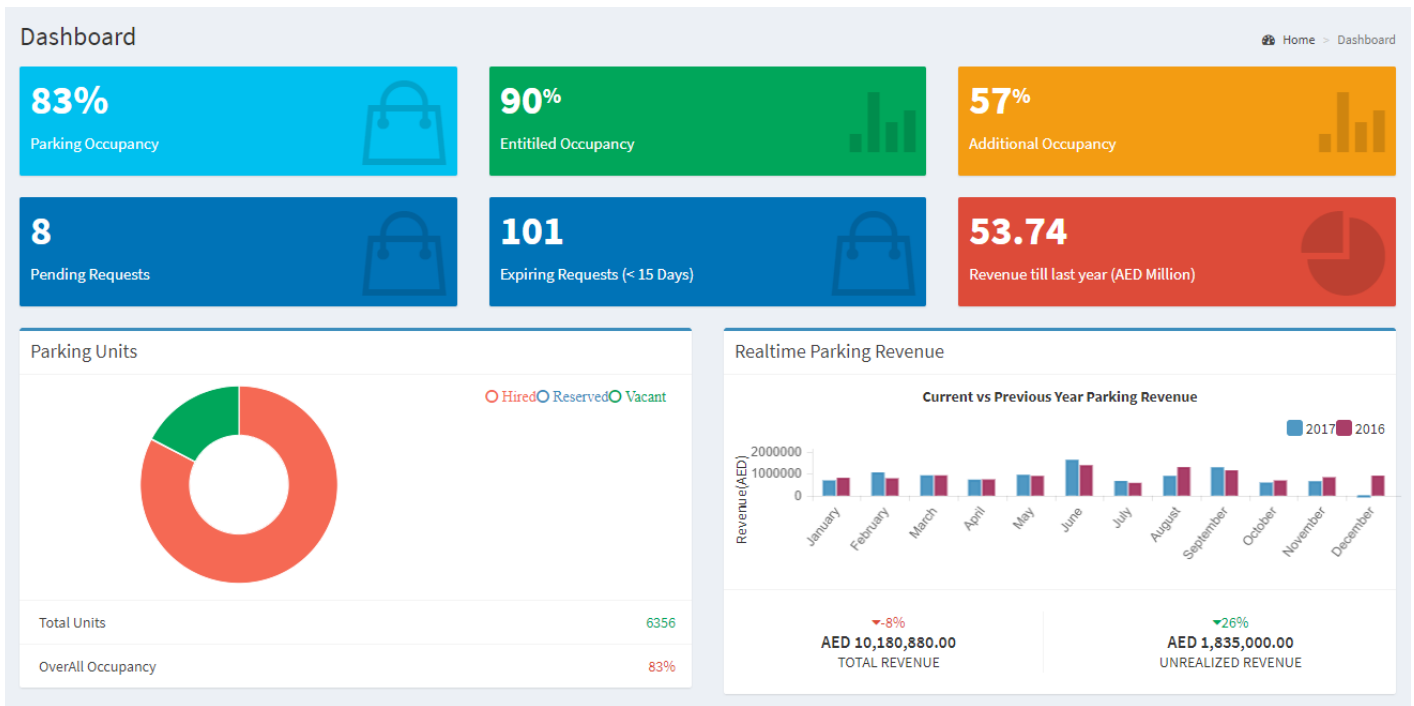

What is mParking?

There are Commercial Properties, like Business Parks, Industrial Zones, Technology Centers and more, that accommodate numerous companies, and allows these companies to rent out a number of parking lots for their employees. The parking is purely commercial and fixed on a monthly basis. The parking in this magnitude is massive, scaling various levels of basements, and floors. And if there is no software to track the parking lots that are allocated to each company, *mass confusion, and unnecessary stress* on an everyday basis will be the only result.

This is where mParking matters.

A POWERFUL PARKING MANAGEMENT SOLUTION FOR COMMERCIAL ENTERPRISES THAT HELPS THE PROPERTY OWNERS MANAGE THEIR CLIENTS AND THE COMPANIES TO MANAGE THEIR PARKING. FROM REVENUE MANAGEMENT TO REAL-TIME ANALYTICS, TO CLIENT MANAGEMENT, **MPARKING HAS ENTERPRISE PARKING DECODED.**
